Grundfos products with CIM 250-299

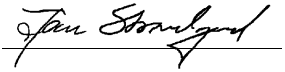
(GB) **Safety instructions**

Declaration of Conformity

We, Grundfos, declare under our sole responsibility that Grundfos products including a CIM 250-299 module, to which this declaration relates, are in compliance with the essential requirements and other relevant provisions of the R&TTE Directive (1999/5/EC).

The technical documentation relevant to the above equipment will be held at Grundfos, 8850 Bjerringbro, Denmark.

Bjerringbro, 14th January 2010



Jan Strandgaard
Technical Director

Original installation and operating instructions.

Warning

Prior to installation, read these safety instructions and the installation and operating instructions supplied with the product. Installation and operation must comply with local regulations and accepted codes of good practice.

1. General safety

The CIM 2XX GSM module is designed to be fitted in either a Grundfos CIU unit or another Grundfos product, both to be considered as being non-portable units.

The unit must be installed and operated in compliance with all applicable international laws, national laws, safety standards, wiring rules and local regulations.

Installers and end-users must be provided with installation instructions and operating conditions for satisfying RF exposure compliance.

The unit should be installed only by qualified personnel.

2. RF safety

The antenna used for this unit must be installed to provide a separation distance of at least 20 cm from any part of the human body and must not be co-located or operated in conjunction with any other antenna or transmitter.

- Do not operate the unit near medical devices. This statement also applies to personal devices, such as hearing aids and pacemakers.
- Do not operate the unit in potentially explosive hazardous areas, such as gas stations, chemical plants and blasting areas.

Interference of other electronic equipment may occur if the equipment is inadequately protected.

3. Antenna precautions

The antenna used for this unit must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operated in conjunction with any other antenna or transmitter.

The combined gain of the cable-antenna solution used for this unit must not exceed 1.4 dBi (850 MHz) and 3.0 dBi (1900 MHz).

4. Disposal

This product or parts of it must be disposed of in an environmentally sound way:

1. Use the public or private waste collection service.
2. If this is not possible, contact the nearest Grundfos company or service workshop.
