Correction sheet

Correction to Installation and operating instructions for SE and SL pumps, Range 56 part number 92777903 and Safety Instructions for SE and SL pumps, Range 56, part number 92777905.

These sections replace the version found in the above documents.

Approvals

The explosion-proof versions have been approved by FM Approvals according to the ATEX directive / UKEX regulation and IEC standards and have the following Certificates:

- FM24ATEX0009X
- IECEx FMG 24.0007X
- FM24UKEX0004X.

The letter X in the certificate number indicates that the equipment is subject to specific condition of use. The conditions are described in the certificate and the installation and operating instructions.
